Community Commissioning Reminder

The purpose of Community Commissioning is to find cost-effective ways for local communities to progress schemes for which Herefordshire Council funding is no longer readily available. It enables communities to enhance their local area and address their local needs. Any service that is within the current scope of the Public Realm contract (i.e. delivered by Balfour Beatty Living Places) can be considered, subject to approvals. This can be from a simple purchase of routine services or materials, location/street name plate signage or the purchase of litter bins, to the identification of solutions and approaches to more complex issues requiring assessment and design works.

If there is a Community Commissioning Model project that your Parish Council would like to consider procuring BBLP to assist with, please contact Molly Walters via the Communities@balfourbeatty.com inbox.
