

Ross Town Locality

Harry.Bradbury@balfourbeatty.com

Hi everyone,

This has been my first full week out and about in Ross on Wye. Last week I completed my Highways Inspectors Course, and I am pleased to say I passed! This week I have been catching up on enquiries that built up whilst I was away and responding to emails.

What I've been up to this week

INSPECTIONS COMPLETED/UPCOMING

No inspections this week.

Site Visits

Today I have 2 scaffolding site visits in Ross Town today and also my first meeting with Linton Parish Council to discuss their current issues and how I can be of assistance.

What's coming up & other news

Week Commencing 14/11/2022

Next week will be a mixed week, I have booked in several parishes to go and introduce myself and discuss how I can be of assistance. I also have a few different inspections including assisting with Bromyard night time inspections.

If I have missed anyone off from my email asking when is convenient to come and introduce myself, my apologies, please do get in contact and I can put something into the diary!

There are usually 2 pages to the briefing, the second page normally contains the 'completed works' section. Unfortunately I am still awaiting the report that provides this to be set to send to me, as soon as that starts, ill be sure to include it for you!

Self-Generated Works

When I am out and about on the network and I have the capacity, I undertake simple maintenance jobs providing it is safe to do so and requires no traffic management.

B4234, Kerne Bridge

Side entry gully unblocked resulting in standing water disappearing

Hope Mansel Lane, Hope Mansel

A spring is causing water to run across the road and has washed away a verge. I made safe the area with cones and signage.
