What's coming up & other news

Week Commencing 28/11/2022

Next week I will be completing my monthly walked inspection, A roads and playgrounds.

I'll also be assisting a colleague with an inspection in a different locality.

This will be the last week for enquiries to be attended so I will be clearing as many as possible before the Christmas break.

To Note :

There are usually 2 pages to the briefing, the second page normally contains the 'completed works' section. Unfortunately I am still awaiting the report that provides this to be set to sent to me, I have chased this with our IT team.

Self-Generated Works

When I am out and about on the network and I have the capacity, I undertake simple maintenance jobs providing it is safe to do so and requires no traffic management.
