

Ross Town Locality

Harry.Bradbury@balfourbeatty.com

Hi everyone,
This week has certainly been a wet one! I have had a lot of enquiries about flooding this week and blocked gullies. Where possible, I have tried to assist by re-opening grips that were blocked or arranging for flood boards etc to be put out.

What I've been up to this week

INSPECTIONS COMPLETED/UPCOMING

Ross Town Monthly walked inspection (14 defects raised)

(Assisted with Bromyard C & U Monthly Night Time and the Mortimer A & B Night time inspection)

I also completed a 'dry run' of my winter north inspection route, this is a new role I have taken on during the winter season.

Site Visits

No site visits this week.

What's coming up & other news

Week Commencing 28/11/2022

Next week I have 1 last night time inspection to help out on and then I have a selection of Parish Meetings booked in. I am then on leave from Friday 2nd December and return on Thursday 8th December. Any issues during this time please leave me an email and I will get back to you, if it is an emergency, please follow the usual process of calling our customer services line 24/7 on 01432 261800

To Note :

There are usually 2 pages to the briefing, the second page normally contains the 'completed works' section. Unfortunately I am still awaiting the report that provides this to be set to sent to me, I have chased this with out IT team.

Self-Generated Works

When I am out and about on the network and I have the capacity, I undertake simple maintenance jobs providing it is safe to do so and requires no traffic management.

C1274, Walford

Identified some carriageway pooling and a grip that was overgrown adjacent to it. Re opened grip to allow water to flow off carriageway.

C1275, Pontshill

Flood boards put out to warn drivers of water across the carriageway by Bills Mills
